2001/2002 Annual Unified Program Certification

Dear Business Owner:

In addition to other notification and update requirements, Chapter 6.95 of the California Health and Safety Code requires your Hazardous Materials Business Plan (HMBP) to be reviewed and updated annually. If you have made changes to your HMBP, please check the "Changes Have Been Made" box(es) below. The Fire Department will send you all of the appropriate forms necessary to update your status. If no changes have been made you must check the box and sign below. This form will serve as your 2001/2002 official update.

This form must be signed by the business owner or officially designated representative. Check the appropriate box(es) and return to the Fire Department by **December 15, 2001** along with the required annual CUPA fees shown on the attached invoice. Failure to do so will result in additional fines being assessed. The minimum late penalty fine is \$300.00 dollars.

CHECK THE APPROPRIATE BOX AND SIGN THE FORM BELOW

☐ **CHANGES HAVE BEEN MADE:**

- ☐ **Emergency Contacts** – These are the two main contacts and their emergency phone numbers that the Fire Department will use in the event of an emergency.
- ☐ **Chemical Inventory** – The types and/or quantities of chemicals, hazardous liquids, solids, compressed gases, or waste have been changed.
- ☐ **Facility Plot Plan** – This is the diagram of your facility, which indicates the storage and use location of all the hazardous materials listed in the inventory.

☒ **NO CHANGES (all items must be correct):**

- 1) The most recent inventory statement is complete, accurate, and up to date.
- 2) There has been no change in the quantity of hazardous material as reported last year.
- 3) No hazardous materials subject to the inventory requirement are being handled that are not listed on the inventory statement on file.

I certify under penalty of law that our business has reviewed the current HMBP on file with the Santa Fe Springs Fire Department and certify the submitted information is true, accurate and complete.

NOTE: Businesses that use the HMBP to satisfy EPCRA reporting requirements may not use a certification statement – it is not recognized under federal law. These businesses must annually resubmit their inventory.

HAZARDOUS MATERIALS BUSINESS PLAN

FOR FACILITY LOCATED AT:

9101 SORENSEN AVENUE

Dear Business Owner:

You are not in compliance with Ch. 6.95 of the California Health and Safety Code, Section 25500 and Ordinance #685 (Hazardous Materials). This is a State mandated program and must be completed or legal action may be taken. The following must be corrected:

- ☒ Hazardous Materials Business Plan Statement was not submitted or was incomplete.
- ☒ Hazardous Materials Plot Plan was not submitted or was inadequate.
- ☒ Emergency Response Plan was not submitted or was inadequate.
- ☒ Hazardous Materials Inventory Sheet was not submitted or was inadequate.
- ☒ Annual fee was not submitted or was miscalculated.

Amount Received:

.....

Corrected Amount

Fee

Penalty

Amount Due:

- ☒ All businesses operating within the City must disclose a hazardous material business plan. If you do not have any hazardous materials, please fill out sections 1, 2, & 4 on page 3 of the enclosed packet and return the statement promptly by the date stated below. Otherwise, fill out the entire business packet and return promptly by the date stated below. If you have any questions on filling out this packet, please do not hesitate to call. **YOU MUST ALSO CONTACT CITY HALL TO OBTAIN A BUSINESS TAX OPERATIONS CERTIFICATE.**

Businesses in non-compliance may be held civilly liable for fines up to \$2000.00 for each day in which the violation occurs. To avoid such enforcement action, you must correct the above checked items by:

June 25, 1996

Please contact Steve Koester or Brian Reparuk at the Environmental Protection Division of the Santa Fe Springs Fire Department at (310) 944-9713 if you have any questions, or require assistance in this matter.

Sincerely,

Stanley D. Boettcher
Fire Marshal

PURITAN PACKAGING COMPANY
A DIVISION OF PURITAN AEROSOL CORPORATION

B Shift - 12 min

April 17, 1967

Battalion Chief, D. J. Thompson,
Santa Fe Springs Fire Department,
11736 Telegraph Road,
Santa Fe Springs, California 90670

Dear Chief Thompson:

Per our discussion Monday, April 17, 1967, I would like to confirm the invitation to you and/or men of your department to be present at our next Plant Safety Meeting, which could be of interest to you and your group.

Briefly, the rundown is as follows: 25 April 1967, 4:30 P.M.

Mr. Donald Rowson, of Industrial Hydrocarbons Company, Pomona, California, will present a film and hold a discussion period relative to the approaches of working with Hydrocarbons (butanes and propanes).

I am sure that you will agree this affords an excellent opportunity for additional members of your Department to become aware of our plant and as well, its operation. Since we are something of an "odd-ball" in your industrial complex of Santa Fe Springs, oftentimes there can be an apprehensive attitude when the general populace happens to see our rather tall, vertical propellant tanks.

Also, this is in keeping with the excellent cooperation that your Department has given our company since the advent of us upon the scene here in Santa Fe Springs. If you can keep your group to a maximum of approximately 10 to 12 persons, it will be greatly appreciated. Incidentally, do not be surprised if our people call upon yours in the manner of some questions.

Yours truly,

PURITAN PACKAGING COMPANY
Division of Puritan Aerosol Corporation

Sir:

In answer to your letter dated October 27, 1978. We have installed a rain water diversion system that will allow 0.1" rainfall before allowing rain water to the sewer system.

This system is being operated daily, and all pollutants are pumped through our interceptor. With the new diversion system I anticipate no problems of pollutants getting into the wrong system.

Sincerely,

William L. Rowley

Dear Sir:

In reference to the building for Ludlow Corporation being erected at 9101 South Sorenson Avenue, Santa Fe Springs, California, please be advised that this building will be occupied by Puritan Packaging Company, a division of Puritan Aerosol Corporation of Rhode Island, and a wholly owned subsidiary of Ludlow Corporation.

Puritan Packaging Company will be engaged in the manufacture and packaging of aerosols and liquids in metal, glass and plastic containers. The purpose of the trenches in the floor of this building is to drain off water that may be splashed about the area of the hotbaths (container heating devices essential to aerosol filling) and for washing down all surrounding filling lines to keep that area clean and dry during operation.
